

A little about MicroWorks

MicroWorks, Inc. is a Microbiological consulting and training firm that was formed on the basis that pharmaceutical manufacturers and suppliers do not always have the proper amount of personnel to do all of the studies that need to be done within the facility.

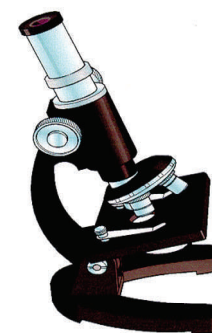

MicroWorks, Inc. has found its market in being a hands-on consulting firm. We are not a company that tells clients what they need to do, but a company that does projects for our clients.

MicroWorks has expertise in all areas of Microbiology including environmental monitoring program design, new method development, auditing, equipment validation, cleaning validation program design and regulatory follow-up.

HELP!!!

- ◆ Do you need a Microbiologist to perform work for your laboratory without the commitment or hassle of hiring? Without the expense?
- ◆ Do you need a consultant with the experience to **do** projects for you, not just tell you what **you** need to do?
- ◆ Does your staff need technical training that your training personnel do not have the expertise to do?
- ◆ Does your staff have the laboratory skills but lack the ability or time to design experiments, write procedures, protocols or reports?
- ◆ Are you just temporarily swamped in your lab?

MICROWORKS CAN HELP!!!

Do any or all of these scenarios sound familiar?

MicroWorks wants to help you get through these tough times without putting more stress on your already overloaded staff and without long term commitments.

SERVICES

- ◆ Designing Environmental Monitoring programs
- ◆ Protocol, Standard Operating Procedure, and Report Writing to suit your needs
- ◆ Training programs in Environmental Monitoring, Proper Methods for Working in a Cleanroom, Microbiology Laboratory Procedures, Good Manufacturing Practices, Preparing for an FDA Inspection and many more
